

How to Add Additional Accident Questions

Your drivers can report any accidents that may have occurred while they have been travelling. They will be asked questions on the mobile app to collect data surrounding the accident. You may require additional questions to be asked from your driver's and you can add this to the sequence of questions.

Add Additional Accident Questions

From the main dashboard, click on Safety Centre.

Click on the 3 dots that can be found in the top right of the screen.
