

How to Retrieve Driving Events Footage

From time to time, you may need to download footage from the platform. This may be for insurance purposes or to provide it to the police, for example.

Find & Store Footage

First, you will need to find the specific event you would like to retrieve footage from. Click on Driving Events from the left-hand menu.

Select any event you are interested in from the left.

Now that you have selected the event you want to retrieve footage from, you can do one of two things:

- Submit the footage to the cloud to store
- Locally download the footage

To upload footage to the cloud for storage, click to submit the footage, which will be sent to the cloud and stored indefinitely on your account.

Once you have clicked the camera icon, you will get a pop-up summary of the event you are looking at. You can select the footage to store by checking the relevant cameras, and also preview the footage by clicking on play to

the left. There is no need to identify the date and time, as it will take you directly to the time the event happened. Once you are satisfied, click submit to send the footage to the cloud to keep indefinitely.

To locally download footage to your device, click the downward pointing arrow in the top right of the screen.

Footage and My Files

Once you have submitted footage to the cloud, you can then access it through the My Files found in the left-hand side menu.

You will then see a list of all footage that you have submitted to the cloud for storage.

The screenshot shows the 'My Files' section of the CameraMatics Dashboard. It displays a list of files with columns: File Name, Vehicle Name, Driver, Start Time, Duration, Channels, Created At, Status, Sharing, and Actions. The list contains 10 files, each with a checkbox, a file icon, and a download icon. The status column shows '3 of 6' for each file. The sharing column shows a share icon and a lock icon. The actions column shows a trash icon and a refresh icon.

File Name	Vehicle Name	Driver	Start Time	Duration	Channels	Created At	Status	Sharing	Actions
