

How to use the Tracking Feature for a Vehicle

To see reports relating to a specific vehicle, use the Tracking feature. Select Tracking from the left-hand menu.

Then decide which vehicle you want to view, and the date range you are interested in. Once done, click Search.

Registered in England No. 09939849
Directors: M. O'Callaghan, S. Murray, S. Warne

[CAMERAMATICS.COM](https://www.cameramatics.com)

You will then see different tabs along the bottom of the map view. These are:

- **Trips** – To show a full list of the trips that this vehicle has completed within the timeframe
- **Ignition** – Times when the ignition has been switched on and off
- **Speeding** – Speeding events recorded during the relevant time frame
- **Driving Events** – Events such as harsh acceleration, braking and cornering recorded during the relevant time frame.
- **IO Events** – This will show any events that the driver specifically wants you to see.
- **Geofencing** – If the vehicle has crossed any Geofences during the relevant time frame.

Once you have searched for the specific report you are looking for, you will see detailed information surrounding the vehicle.

Trips

You will see each trip that the vehicle has completed. Click on any of these to see the route taken on the map.

IO events

IO events are those initiated by the driver for whatever reason. The driver presses a button, and a 30-second clip is recorded and uploaded alongside relevant telematics data. As before, all such events within the relevant timeframe can be displayed on the map.

Geofencing

This will show all geofence events that the vehicle has triggered with during the trips it has completed. As before, if you click on one of the lines, you will see where on the map this has taken place.
